PATIENT INFORMED CONSENT, MEDICAL & SURGICAL WEIGHT LOSS

I. PROCEDURE AND ALTERNATIVES

- a. I authorize the medical staff at DFW Bariatric Institute, to assist me in my weight loss efforts. I understand my treatment may involve the use of one or more of the following modalities to lose weight: a very low calorie diet (VLCD); use of appetite suppressants for more than 12 weeks, the time period indicated in the appetite suppressant labeling; off-label use of Metformin for treatment of obesity.
- b. I understand it is my responsibility to follow the instructions carefully and to report to the doctor treating me for my weight any significant medical problems that I think might be related to my weight control program as soon as reasonably possible.
- c. I understand the purpose of this treatment is to assist me in my desire to decrease my body weight and to maintain the weight loss. I understand my continuing to receive the VLCD supplements, appetite suppressant or Metformin will be dependent on my progress in weight reduction and weight maintenance. I am aware that weight gain may occur if I am not compliant with the program.
- d. I understand there are other ways and programs that can assist me in my desire to lose and maintain my weight.

II. RISKS OF PROPOSED TREATMENT

- a. Prior to my treatment, I have fully disclosed any medical conditions or disease that may prevent me from receiving appetite suppressant or VLCD for my weight loss.
- b. I understand this authorization is given with the knowledge that the use VLCDs and appetite suppressants may involve some increased risks and hazards such as the following:
 - i. Side effects of VLCDs: lightheadedness, fatigue, constipation, headache, bad breath, dry mouth, nausea/vomiting, diarrhea and hair loss. Less likely are gallbladder disease, allergy, fainting, low potassium and low sodium. In addition, the use of a VLCD with blood pressure and/or diabetes medications could cause low blood pressure and/or low blood sugar, respectively. These and other possible risks could, on a rare occasion, be serious or fatal.
 - ii. Side effects of appetite suppressants: nervousness, insomnia, headaches, dry mouth, diarrhea, constipation, nausea/vomiting, psychological problems, medication allergies, high blood pressure, rapid heartbeat and heart irregularities. Although rarely, it can lead to pulmonary hypertension. These and other possible risks can be fatal on a rare occasion.
 - iii. Side effects of Metformin: diarrhea, nausea/vomiting, bloatedness, weakness, indigestion, abdominal discomfort, headache and hypoglycemia. Less likely are signs of lactic acidosis, including feeling tired or weak, muscle pain, trouble breathing, stomach pain, feeling cold, dizziness or lightheadedness, and a slow or irregular heartbeat. These and other possible risks could, on a rare occasion, be serious or fatal.
- c. I understand that the use of appetite suppressant or Metformin is absolutely contraindicated during pregnancy and breastfeeding. I understand that it is my responsibility to inform the medical staff at DFW Bariatric Institute if I am pregnant, if I am trying to become pregnant or if I become pregnant during the course of these treatments.
- d. I agree to immediately report any change in medical history/medication or problems that might occur to my medical provider during the treatment program.

III. RISKS ASSOCIATED WITH BEING OVERWEIGHT OR OBESE - I am aware that there are certain risks associated with remaining overweight or obese. Among them are tendencies to have high blood pressure, diabetes, back and joint pain, heart diseases, cancer and gallbladder disease. I understand the risks may be modest with weight reduction, but that these risks can go up significantly the more overweight I am.

IV. NO GUARANTEES - I understand that much of the success of the program will depend on my efforts and that there are no guarantees or assurances that the program will be successful. I also understand that I will have to continue with sensible and nutritional eating habits and regular exercise if I want long term success. I understand that many health insurances do not pay for my weight loss treatment. I acknowledge and agree to pay all charges and fees associated with my weight loss program if the fees are not covered by my health insurance.

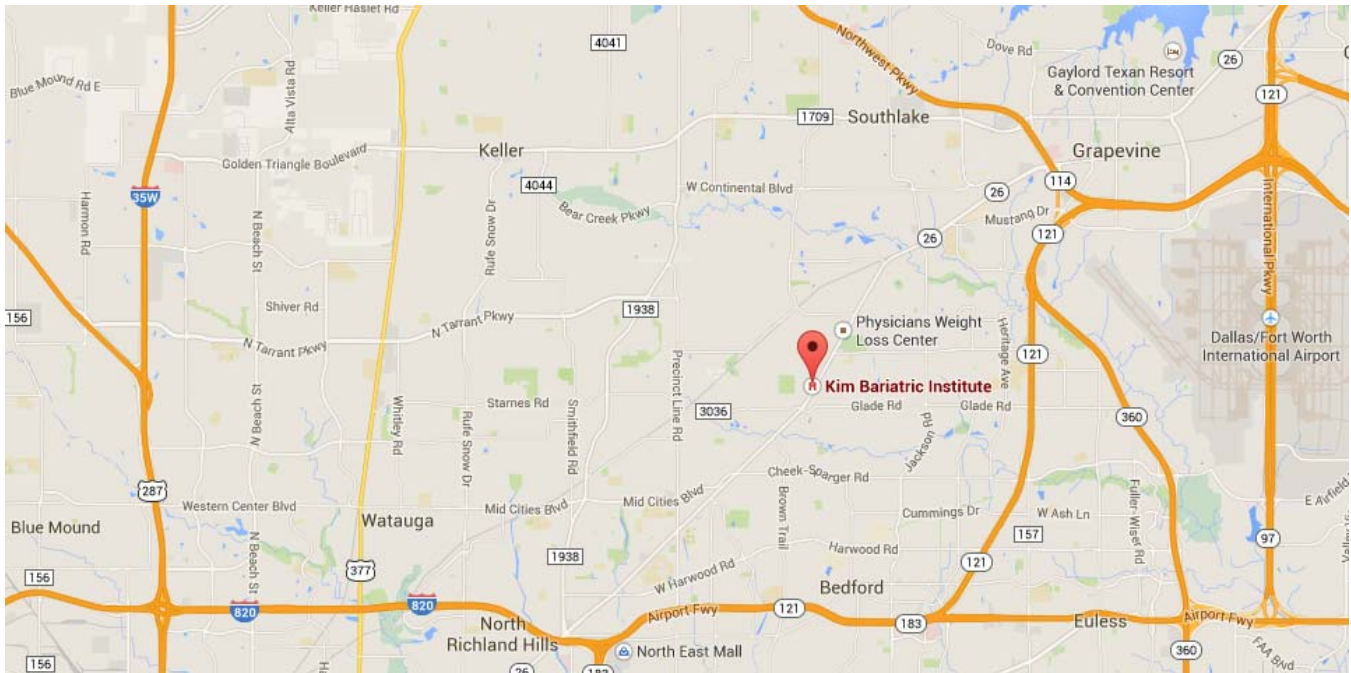

I, the undersigned, have reviewed this information with my healthcare professional or my physician, and have had an opportunity to ask questions and have them answered to my satisfaction.
